

SAVING LIVES, IMPROVING HEALTH:

Redesigning Opioid Use Disorder Care

DESIGN GRANT WORK PLAN October 2017

In the work plan, outline goals, action steps, person responsible, and due dates related to the development or expansion of your program. The work plan should span the proposed six-month design phase period and will not count against the word count limit.

EXAMPLE Goal 1: Formalize relationship between facility and primary care practice			
Key Action Steps	Person/Area Responsible	Due Date	Comments
Design workflow for connection of patient from correctional facility to primary care	Project lead with input from both organizations	By February 2018	
Establish MOU between organizations to document roles and responsibilities and solidify relationship	Project lead with input from both organizations	By March 2018	

Goal: Provide at least three measurable goals. Additional goals can be included in the plan to clarify activities.			
Key Action Steps	Person/Area Responsible	Due Date	Comments
For each goal, provide at least one action step. Add lines for action steps as necessary.	Identify at least one person/area responsible for carrying out the action step.	Identify a time frame for carrying out the action step.	Provide supplemental information, if desired.
